- 3... The Podrisky Creek
- 4... The town of Mirosov
- 5... The city of Rokycany

SECRET/SECURITY INFORMATION

PLAN OF THE IRON WORKS "BILA CERKEV" WITH LEGEND

50X1

SECRET/SECURITY INFORMATION

Legend

- 1... A single track railroad, Rokycany - Nezvestice.
- 2... State highway (asphalt), Rokycany - Mirosov.
- 3... Railroad track in the plant.
- 4... Field (sic) road, four meters wide.
- 5... Dry creek, ten meters wide.
- 6... Concrete bridge, four meters wide.
- 7... Main road (under construction) to the plant.
- 8... The Podriský Creek which supplies the plant with water.
- 9... A barbed wire fence around the plant which prevents the employees (prisoners) from escaping.
- 10... A concrete wall (30 meters long, 30 centimeters wide and two meters high); the purpose of it is unknown.
- 11... The old building of the plant - a brick factory hall, 100 x 15 x 10 meters. Furnaces and rolling mills are located here.
- 12... Warehouse for fuel and various other materials.
- 13... A two-story brick building (15 x 8 meters) which serves as offices for the management.
- 14... This is probably an administrative building like that described under (13) or a wooden barracks like those described under (15) and (16).
- 15,16 Wooden living quarters for the employees.
- 17... Administrative offices of the "Stavens", National Corporation in Prague, which carries out the construction of the new buildings in the plant. These offices are located in a ground-floor brick building.
- 18... New building containing eight furnaces.
- 19... Factory hall of a new plant (purpose unknown), 30 x 15 x 15 meters. The roof is made of corrugated steel and has several light shafts. At the present time, there are no machines in this hall.
- 20... The main hall (30 x 30 x 15 meters) has a corrugated steel roof containing light shafts.
- 21... Pipelines from the old plant to the purification station.
- 22... A purification station for asphalt - a ground-floor brick building.
- 23... A railroad leading to the warehouse. 24... Railroad station Nova Hut
- 25... A ground-floor barracks (15 x 8 meters) for workers' living quarters. It accommodated approximately 60 prisoners at the end of 1950.
- 26... A ground-floor barracks (30 x 12 meters) which accommodated prisoners from the State Prison in Bory. The number of prisoners was 150 at the end of 1951.
- 27... The chimney of the old plant - 50 meters high and five meters in diameter.
- 28... A new chimney - 40 meters high and five meters in diameter.
- 29... A new chimney - 30 meters high and four meters in diameter.
